NWS Spot Forecast as of 9:51 am
FW: Plume Model Output - Update

Guy:

Sorry for the delay. Too many things going on at once. Here are all the emails I have gotten so far.

I have not yet received a chemical inventory of what was in the building.

We do hear that 2 reps from US DOT PHMSA are on the way to Minot, as well as a ND rep from DHS Headquarters that is stationed in ND.
